

RESEARCH PARTICIPANTS NEEDED

MENTAL HEALTH PROVIDERS

What this study is about:

We are looking for mental health providers to pilot a newly developed Cultural Humility toolkit and give feedback. These resources have been designed to help providers to offer more culturally-relevant services. We want to hear about your experiences and recommendations!

Why participate:

We will use the information collected to help guide our efforts to refine the toolkit and promote culturally-relevant mental health care for diverse groups.

All participants will be compensated up to \$50 for completing two surveys and independently using the toolkit materials over four weeks.
