

RESEARCH PARTICIPANTS NEEDED

**Black/African American
and/or Latine people aged 18 to 65**

**Are you willing to be part of a research study
assessing the needs for community mental health?**

What this study is about:

We are a team of researchers and community partners who are hoping to hear from people who identify as black/African American and/or Latinx sharing ideas including:

- Current community mental health needs
- Interests and feasibility for mental health care services
- Recommendations for mental health promotion
- Ongoing barriers to addressing mental health challenges

Why participate:

All participants will be compensated \$10 for completing an paper or online survey. The survey takes about 10 minutes. We will use the information as a needs assessment to help guide our efforts to develop community-based (and community-led) programs to address these mental health needs.
